

TOYOTA LEXUS MAIL ORDER SERVICE

Lost TOYOTA OR LEXUS keys?

OR

Need additional keys?

Some first generation transponder systems weren't designed to allow for programming new keys via the OBD2 port if the customer loses all of the keys to their car.

For this reason, the DEALERSHIPS charge a fortune of at least \$1200 to replace the ECU of the car in order to make keys from scratch.

The Good news is ENSUNLOCKS can save you a lot of money by reflashing and programming two transponder keys ready to start your car...

This SERVICE INCLUDES TWO TRANSPONDER KEYS

This is for LOST KEY SERVICE for the following vehicles:

LEXUS:

1998-2001 Lexus ES300
1998-2001 Lexus GS300
1998-2000 Lexus GS400
2001 Lexus IS300
1997 Lexus LS400 (this model uses separate immobilizer box instead of ECU)
1998-2001 Lexus LS400
1998-2000 Lexus LX470
1999-2003 Lexus RX300
1998-2000 Lexus SC300
1998-2000 Lexus SC400

TOYOTA:

99-00 4Runner
98-04 Avalon
98-01 Camry
01-03 Highlander (V6 engine only)
98-00 Land Cruiser
00-05 MR2 Spyder
98-03 Sienna
98-01 Solara

IMPORTANT INFORMATION:

- This service requires that you send the vehicle's ECU to us for service.
- If you want the keys cut to match your vehicle, please send the following:
 - Passenger door lock cylinder OR
 - Key code OR
 - Working key sample with the ECU for service.
- ***There is no need to resync or program the new keys as they are already programmed with your car's ECU.***
When you get the ECU back, just reinstall it and start the car. It is that SIMPLE!!!
